

## *AISTech 2020*

*The Iron & Steel Technology Conference and Exposition*

**Location:** Cleveland, OH

**Date:** Event Postponed

**Cattron Booth:** 2861

### **ABOUT AISTech 2020**

AISTech is steels' premier technology event featuring technologies from all over the world that help steel producers to compete more effectively in today's global market. AISTech is a can't-miss event for anyone involved at any level of today's steel marketplace, providing perspective on the technology and engineering expertise necessary to power a sustainable steel industry.

### **FEATURED SOLUTIONS**

**Transport QC™** | A quick connect locomotive remote control solution with the lightest weight enclosure and the fastest installation time in the industry. Weighing in at 65 lbs and installed in as little as 5 minutes, learn how Transport QC can enhance your plant rail operations.

**Transport CS™** | A fixed mount locomotive remote control solution that boasts industry-leading safety features and design. This single cabinet enclosure mounts inside the cab and is the ideal solution for plant rail operations.

**Remtron™** | Remtron™ is a proven line of durable, high value industrial wireless remote control systems available in either a standard or custom configuration. Every system is designed, produce and serviced in the USA. The quality and durability of Remtron speaks for itself with many systems still in use after 5 and 10 years.

**Safe-E-Stop™** | A SIL 3 rated wireless emergency stop system that enhances safety by allowing an individual or a group of operators to respond to an emergency without the delay typically associated with moving to a hard-wired E-stop station.
